Plan of Operation

The Company has entered a new era with the entry of new owners and their management team. The Company will continue to implement the Business Plan, as disclosed to the SEC and the PSE last year, to maximize its structure as holding company and focus on the ASEAN region and other Asian involvements, with a view to integration into the ASEAN Economic Community. The Company plans to expand its holdings in Information Technology to include ventures in energy and power-related holdings, agri-business and real estate.

The Company is able to satisfy its cash requirements for the next twelve (12) months, as new shareholders invested an amount of approximately P16,000,000 for future shares subscription to fund the Company's operating requirements.

There are no expected purchases or sale of plant and significant equipment.

Management's Discussion and Analysis

Starting December 2014, Jackstones Inc. (JAS) is steadily being transformed into a holding company for projects, property ventures, businesses and assets primarily in the ASEAN region and neighboring Asian countries without industry-specific limitations. The management team shall benefit enormously from the excellent business and management track record of its Chairman.

Being a publicly listed holding company in the PSE positioned as a prime mover in ASEAN-focused businesses is a very compelling competitive edge. This widens the reach of the Company and hedges the Company's well-being across the performance of all the ASEAN member economies. This also makes the liquidity of JAS better due to an ASEAN-wide market interest for a Philippine-based holding company.

The Company's objectives when managing capital are to support the Company's ability to effectively deploy capital and to protect the interest of its shareholders.

Management shall utilize the capital structure that generates the most value for shareholders and this may entail adjustments to dividends paid to shareholders, loans obtained from banks, and the issuance of new shares. Total capital being managed by the Company is its total equity as shown in the attached statement of financial position.

The Company is also currently negotiating with various investment groups to raise new capital and is also seriously considering another public offering to raise more funds for its investments and holdings. The Company continues to review projects, ventures, businesses and assets that can be included in the holdings of the Company for which JAS may issue shares in exchange for owning them.

A Memorandum of Agreement between Ketton Holdings, Inc. and the previous shareholders states that any claims filed against the Company by ING following the closing date of the sale, with regards the loan extended by ING to PACEMCO, shall be for the account of the previous shareholders. Accordingly, management believes that the Company's financial position and results of operations will not be significantly affected from the ultimate disposition of outstanding legal cases and claims. Further, there are no other material events and uncertainties known to management that would cause reported financial information not to be necessarily indicative of the future financial condition of the Company.

There are no known trends or known demands, commitments, events or uncertainties that will result in or that are reasonably likely to result in the Company's liquidity increasing or decreasing in any material way. There are no events that will trigger direct or contingent financial obligation that is material to the Company, including any default or acceleration of an obligation.

There are no material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the Company with unconsolidated entities or other persons created during the reporting period. Likewise, there are no material commitments for capital expenditures.

There are no known trends, events or uncertainties that have had or that are reasonably expected to have a material favorable or unfavorable impact on net sales or revenues or income from continuing operations. There are no seasonal aspects that had a material effect on the financial condition or results of operations.
